TASK LIST

Performs work involved in the conduct of research, development, and dissemination of specialized information regarding identification, classification, utilization (including interchangeability), operation. Included under this job title are workers involved in performance of staff services of technical nature, such as identifying and classifying unidentified material in stock; determining and/or recommending repairability, interchangeability, substitution, or disposition of material; interpreting supply documents when descriptions furnished are inadequate to affect issue or disposition of material; assisting personnel of the activity in the solution of supply problems by furnishing expert advice concerning technical materials.

Performs other related or incidental duties as assigned.
